1.1 Introduction

Solihull Metropolitan Borough Council (the "Council") is committed to maintaining a healthy and safe place of work for all of its employees, as well as taking all reasonable steps to ensure that the public and the environment (which may be affected by its work) are exposed to the lowest practicable level of risk.

The Council recognises that:

- it has a moral duty to take all reasonable steps to prevent people being harmed;
- accidents cost money, particularly in terms of lost time, repairs and investigations, and increasingly such costs have to be met from limited budgets;
- it has a legal duty under the Health and Safety At Work Act and other Regulations to provide a safe place of work, safe plant and equipment, safe systems of work, a safe working environment, adequate facilities, safe methods of handling, storing and transporting goods, information, instruction and training; and take reasonable care of the health and safety of others.

High standards of health and safety reduce harm and losses, improve our overall performance and make good business sense.

This Health and Safety Policy is the Council's overarching document for health and safety and provides a comprehensive picture of how the Council complies with its legal obligations and takes responsibility for managing health and safety risks effectively, using a structured and cost effective approach.

This Policy has been prepared in compliance with the requirements of the Health and Safety at Work etc. Act 1974 and supersedes all previous issues. It takes into account all relevant health and safety legislation in place at the time of writing.

This Policy applies to all core council employees (including Local Authority School employees) and failure to comply with it could result in disciplinary action.

The Council's Health and Safety Policy is set out in three parts:

Section One contains the Health and Safety **Policy Statement** which sets out the Council's commitment to managing health, safety and the environment effectively.

Section Two describes the **organisation** and the **roles and responsibilities** of those charged with implementing the Council's Policy.

Section Three describes the day to day **arrangements** in place to achieve the aims set out in the Policy Statement.

Further advice and guidance can be obtained by contacting the Corporate Health and Safety Support Team on 0121 704 6328.
